

About Us...

Lauren

Lauren has been in the industry for over 20 years. After working with some of the best hair colorists and salons in the industry in Manhattan, she moved to Long Island and became a Matrix® Master Haircolorist and Haircutter, and a Matrix® Logics® Artistic Composer and Educator for the industry for over 15 years. She has worked on models for runway and has done hair for models for presentational work and hair shows. When not pampering her own clients, Lauren attends seminars and workshops all over the country to keep up with all of the latest hair fashion trends and then goes to individual salons to educate them on just that. She is also on a panel that helps resource products and trends, tips, and techniques regarding all aspects of beauty. She has mentored many junior stylists that have grown to have extremely successful careers in the industry.

Samantha

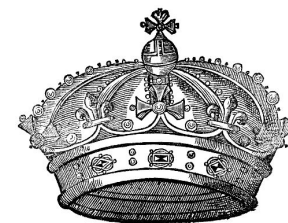

Samantha's career in modeling and image consulting began 20 years ago. Through training in the medical field, schooling in the Arts, and from working with the finest names in the fashion industry, she brings her talents and expertise right to you. Samantha has worked at exclusive boutiques across Manhattan and Long Island. The Airbrush tan, she has found, to be the healthiest way to achieve that glow - from everyday to the runway.
